

## Technical Specifications

Air compressor power	6 bar
Total machine power	8000 watt
Fixing system power	2000 watt
Handle power	1000 watt
Height	1700 mm
Length	3000 mm
Weight	1400 mm

## Advantages

- Ergonomically designed
- Fast and easy handled
- Required only one operator
- Improved material quality

## Usage Areas

- Pocket area
- Head area
- Back knee area
- The limit is your imagination

**This machine is for permanently pattern creasing specific zones onwoven cotton fabric**

- This machine has been designed for saving time reducing costs and getting maximum productivity by one user
- Machine has six independent handles
- Machine has a head mechanism for making crinkles
- The head mechanism can move to each handle on the rail system
- The fixing system continuous giving temperature by heaters on garments during crinkle action and during on waiting time
- This system gives temperature to garments from upper heating system and bottom one at the same time for strong
- Some of crinkle effects do not need curing by oven after this crinkle machine heating system
- Heating by thermostat system has been preferred for minimum energy consumption
